Data Collection Form

FCC Form 372  
OMB Control No. 3060-0086/0018 Control No. 3000-0001  
July 2015

<010>	Study Area Code	371516
<015>	Study Area Name	ARAPAHOE TEL CO
<020>	Program Year	2017
<030>	Contact Name - Person USAC should contact regarding this data	STEVEN KOLLER
<035>	Contact Telephone Number - Number of person identified in data line <030>	3089627298 ext.
<039>	Contact Email Address - Email Address of person identified in data line <030>	skoller@atc1c.net

<110> Has your company received its ETC certification from the FCC? (yes / no ) ☒ ☐

If your answer to line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC? (yes / no ) ☐ ☐

If your answer to line <111> is yes, please file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

371516NE112.pdf

Name of Attached Document

Please select the appropriate responses below (Yes, No, Not Applicable) to confirm that the attached document(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to §54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

<113>	Maps detailing progress towards meeting plan targets	Yes
<114>	Report how much universal service (USF) support was received	Yes
<115>	How much (USF) was used to improve service quality and how support was used to improve service quality	Yes
<116>	How much (USF) was used to improve service coverage and how support was used to improve service coverage	Yes
<117>	How much (USF) was used to improve service capacity and how support was used to improve service capacity	Yes
<118>	Provide an explanation of network improvement targets not met in the prior calendar year.	Yes

**4005 Rural Broadband Experiment**

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

**Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)**

Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

**4001.** Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

**Community Anchor Institutions – FCC 14-98 (paragraph 79)**

**4003a.** RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

**4003b.** Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.

**Broadband Deployment Locations – FCC 14-98 (paragraph 80)**

**4004a.** Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481.

**4004b.** Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area.

Title 47 §54.313(a)(1) Progress Report

Due: July 1, 2016

Company Name: Arapahoe Telephone CompanyCompany Headquarters: Arapahoe, Nebraska**Narrative**

Pursuant to FCC USF/ICC Transformation Order, rate of return carriers were required to file five year plans consistent with Title 47 Section 54.202(a)(1)(ii) in 2014 and are required to file annual progress reports thereafter consistent with Title 47 Section 54.313(a)(1). The Arapahoe Telephone Company (ATC) service area is the certificated telephone exchanges of Arapahoe, Brule, Farnam, Hendley, Holbrook, Loomis, and Overton in southern Nebraska.

The annual progress reports should include (1) maps detailing progress towards meeting plan targets, (2) an explanation of how much universal service support was received and (3) how it was used to improve service quality, coverage, or capacity, and (4) an explanation regarding any network improvement targets that have not been fulfilled in the prior calendar year.

**Maps**

Detailed maps are included as progress towards plan goals was made to date.

**CONFIDENTIAL FINANCIAL INFORMATION –  
SUBJECT TO PROTECTIVE ORDER IN WC  
DOCKET NO. 14-58 BEFORE THE FEDERAL  
COMMUNICATIONS COMMISSION**

FCC Annual Reporting Requirements for ETCs

Service Standard and Consumer Protection Rules

September 27, 2013

Arapahoe Telephone Company

1. The Arapahoe Telephone Company (Arapahoe) has been providing high quality service in south central and southwestern Nebraska since 1904. This includes compliance with evolving service quality standards and consumer protection rules.
2. Arapahoe follows and has procedures and policies in place to meet the applicable requirements of the Nebraska Public Service Commission (NPSC), Title 291, NPSC Telecommunications Rules and Regulations, Chapter 5, section 002 Local Exchange Service. Arapahoe's management team, plant supervisors, plant technicians, and customer service representatives have the training, experience, equipment, processes and other resources necessary to comply with these requirements. The index of these comprehensive NPSC requirements is provided on the immediately following pages. The complete text of these rules and regulations, covering approximately fifty pages will be provided upon request or can be viewed and downloaded using the following link  
[http://www.psc.state.ne.us/rules/rules\\_telecom.pdf](http://www.psc.state.ne.us/rules/rules_telecom.pdf).

b.

Arapahoe Telephone Company  
Ability to Remain Functional in Emergency Situations

1. Arapahoe Telephone Company (ATC) has been providing high quality service in Nebraska since 1904. This includes operating in adverse conditions including blizzards, ice storms, thunderstorms, tornadoes and during prolonged power outages. ATC's management team, plant supervisors, plant technicians and customer service representatives have the training, experience and equipment necessary to respond to, manage and operate in emergency situations.
2. Arapahoe Telephone Company follows applicable Rural Utilities Service (RUS) Telecommunications program practices and guidelines including the Telecommunications Engineering and Construction Manual (TE&CM) and other industry standards available to small telecommunications carriers. Arapahoe Telephone Company also meets the requirements of the Nebraska Public Service Commission (NPSC) as applied to local exchange service.
3. Back-Up Power
  - 3.1. Central Office
    - 3.1.1. Arapahoe Telephone Company maintains storage batteries in each central office designed to provide a minimum reserve capacity consistent with RUS TE&CM 1751E-302, Power Requirements for Digital Central Office Equipment. 1751E-302 paragraph 2.3.4 recommends a minimum reserve capacity of 8 hours, or 3 hours if the central office is equipped with an emergency standby generator. This is consistent with Title 291, NPSC Telecommunications Rules and Regulations, Chapter 5, paragraph 002.05 Emergency Operations and Power.
    - 3.1.2. Arapahoe Telephone Company maintains a dedicated standby generator fueled with natural gas at each central office location. The standby unit is equipped with an automatic transfer switch so that in the event of an interruption of the commercial electric power lasting more than a few minutes, the standby generator starts automatically and provides electrical power to the central office equipment, air conditioning and building lighting. The automatic transfer switch also exercises the standby unit periodically and an alarm indication is sent if the standby generator does not start so that telecommunications personnel can perform proactive maintenance.

Arapahoe Telephone Company  
Ability to Remain Functional in Emergency Situations

3.2. Remote Equipment Cabinets

3.2.1. Where electronic equipment in cabinets located remotely from the central office, is used to provide service, the cabinets are equipped with batteries designed to operate for a minimum of eight hours without commercial electrical power. In addition, Arapahoe Telephone Company maintains portable AC standby generators for use in the event of prolonged commercial power interruptions and the cabinets are equipped with external receptacles to facilitate connection to portable generators.

4. Rerouting Traffic around Damaged Facilities

4.1. In the event of damage to cable facilities owned by Arapahoe Telephone Company, our maintenance personnel would restore service using emergency splice kits kept on hand for these types of service disruptions. If the damaged facilities are not owned by Arapahoe Telephone Company we would work with the carrier directly affected to identify the source of disruption and the estimated amount of time before service is restored.

4.2. Arapahoe Telephone Company currently has diverse toll routes in service. Both routes are used to support toll calling as well as critical circuits such as 911 trunks and SS7 A-links. Every effort is made to groom the circuits over the diverse toll routes so that a single outage does not isolate customers from critical services.

4.3. In the event of an extended outage, contact would be made with another service provider which has a separate, physical cable connection with ATC to provision temporary alternate routes supporting originating and terminating toll calls. Emphasis would first be placed on establishing connections to nearby PSAP, law-enforcement and emergency services.

5. Managing Traffic Spikes

5.1. Arapahoe Telephone Company meets Title 291, NPSC Telecommunications Rules and Regulations, Chapter 5, paragraph 002.12 Dial Service Objectives for sufficient central office capacity and equipment during the "...average busy hour-busy season..."

Arapahoe Telephone Company  
Ability to Remain Functional in Emergency Situations

- 5.2. Arapahoe Telephone Company follows applicable RUS practices 522 and 322 when specifying, administering, and assigning facilities within its control (as opposed to facilities ordered by connecting interexchange carriers).
- 5.3. The Genband C15 soft switch in service in Arapahoe will provide performance up to 250,000 Busy Hour Call Attempts (BHCA) of which we are currently operating at 5229 BHCA in Arapahoe. The backplane is non-blocking and will allow 24 DS-0's of traffic to be passed per DS-1 port. The C15 controllers are completely duplicated for reliability. When traffic volumes greatly exceed specified criteria and additional capacity of the switch or connecting facilities, the Genband C15 continues to process calls but with potentially longer waiting times for dial tone, higher post-dialing delays and a higher probability of callers receiving all trunks busy indications (fast busy) and having to redial calls. Depending on the magnitude and duration of extreme peak demand, ATC would examine alternatives such as provisioning additional facilities and work with connecting carriers to expedite additional capacity.

## Nebraska Telephone Assistance Program (NTAP) and the Tribal Lifeline & Link Up Programs

The Nebraska Telephone Assistance Program (NTAP) is available for qualifying customers. This program provides for monthly service discounts on telephone service. NTAP reduces the cost of local phone service by up to \$12.75 per month. Toll blocking at no charge and reduced deposits are also available through NTAP. NTAP is administered by the Nebraska Public Service Commission.

NTAP and Toll Blocking support is available from your telephone company. These programs provide discounts to eligible low-income consumers to help them establish and maintain telephone service.

NTAP assistance lowers the cost of basic, monthly local telephone service. Eligible consumers can receive up to \$12.75 per month in discounts. In addition, the Federal Universal Service Charge is not assessed to consumers participating in Lifeline.

Toll Blocking prevents the placement of all long distance calls for which a subscriber would be charged. Toll blocking is available to eligible consumers at no cost. Also, by choosing this option, consumers are usually not charged a deposit.

To qualify for NTAP, subscribers must either have an income that is at or below 135% of the Federal Poverty Guidelines, or the subscriber, one or more of the subscriber's dependents, or the subscriber's household must receive benefits from one of the following assistance programs:

- Low-Income Home Energy Assistance Program (LIHEAP)
- Medicaid
- Supplemental Nutrition Assistance Program (SNAP); (formerly the Food Stamps Program)
- Supplemental Security Income (SSI)
- National School Lunch Program-Free Lunch program
- Federal Public Housing Assistance (Section 8)
- Children's Health Insurance Program/Kids Connection (SAM, MAC or EMAC)
- Temporary Assistance For Needy Families (TANF)
- State assistance programs (if applicable)

To receive an NTAP application, contact your local Health and Human Services agency caseworker or the Nebraska Public Service Commission, 1200 N Street, Suite 300, POB 94927, Lincoln, NE 68508-4927, Phone: 402-471-3161, Toll Free: 1-800-526-0017 or [http://psc.nebraska.gov/https/pdf/ntap/NTAP\\_Application.pdf](http://psc.nebraska.gov/https/pdf/ntap/NTAP_Application.pdf)

Tribal Lifeline and Tribal Link Up support is also available. These programs provide discounts to eligible low-income consumers to help them establish and maintain telephone service.

A subscriber who lives on Tribal lands and is an eligible resident of Tribal lands is eligible for Tribal Lifeline service if the subscriber, one or more of the subscriber's dependents, or the subscriber's household participates in any of the above-listed qualifying assistance programs or one of the following Tribal-specific federal assistance programs: Bureau of Indian Affairs General Assistance; Tribally Administered Temporary Assistance for Needy Families; Head Start (if income eligibility criteria are met); or the Food Distribution Program on Indian Reservations (FDPIR). Tribal subscribers may also qualify if the household income is at or below 135% of the Federal Poverty Guidelines. For information regarding Tribal Lifeline services, contact your local telephone company.

Voice service is a Lifeline-supported service. Only eligible consumers may enroll in the Lifeline program. Lifeline applicants must present documentation demonstrating eligibility either through participation in one of the qualifying federal assistance programs or through income-based means. Lifeline recipients are required to recertify their eligibility every year. The Lifeline program is limited to one benefit per household, consisting of either wireline or wireless service. A household is defined, for purposes of the Lifeline program, as an individual or group of individuals who live together at the same address and share income and expenses. Lifeline is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.

If you have any questions regarding telecommunications services, please call your local telephone company.

TELEPHONE INFORMATION

371516 NE 1210

According to the Paperwork Reduction Act of 1995, an agency may not conduct or and a person is not required to respond to, a collection of information unless it has a valid OMB control number. The valid OMB control number for this information collection is 0572-0031. The time required to complete this information collection is estimated to average 4 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
